## Featured Speakers

**Olga A. C. Ibsen, RDH, MS**

Olga A.C. Ibsen is an Adjunct Professor at New York University College of Dentistry, in the Department of Oral and Maxillofacial Pathology, Radiology and Medicine and an Adjunct Professor at the University of Bridgeport in Bridgeport, Connecticut. She has made significant contributions to the Dental Hygiene Profession as an educator, clinician, author and editor. She has been a part of the clinical practice of Dental Hygiene for over thirty five years. She has co-authored the text “Oral Pathology for the Dental Hygienist” published by Elsevier, now in its 7<sup>th</sup> Edition. She is a contributing author to all eight editions of Mosby’s Comprehensive Review of Dental Hygiene and to Mosby’s Review Questions for the National Board Dental Hygiene Examination. Ms. Ibsen presents CE courses on Oral Pathology at dental and dental hygiene meetings, nationally and internationally. She is a Consultant Member to the Commission on Dental Competency Assessments where she prepares and evaluates test questions. Additionally, she serves on the editorial advisory boards for “Dimensions of Dental Hygiene” and “The Journal of Dental Hygiene.” In June 2016, she received The Award for Excellence in Dental Hygiene, from the American Dental Hygienists Association.

Damien Nicholas Farrand is originally from Detroit MI. He and his wife Amanda have four boys: Damien 8, Jack 6, Easton 4, and Harrison, 2. Damien and his family have lived in the Birmingham area for 6 years. Damien's career before healthcare was in the service industry for about 20 years, until nine years ago when he began working for a small Christian-based privately held infection control company named HealthLink. HealthLink was purchased by the Clorox Company approximately 5 years ago.

**Damien Nicholas Farrand**

**Patti DiGangi, RDH, BS**

Patti DiGangi, RDH, BS is a coding expert holding publishing and speaking licenses with the American Dental Association (ADA) for Current Dental Terminology (CDT) 2016 and Systematized Nomenclature for Dentistry (SNODENT) diagnostic coding. Patti wrote a chapter in CDT 2017 Companion for ADA and is the author of the DentalCodeology series of mini-books.

Laura was appointed to the Board as Mississippi's state-at-large dental hygiene member on July 1, 2015 for a six-year term ending June 30, 2021. Ms. Richoux received her dental hygiene degree from the University of Mississippi in 2003. After receiving her dental hygiene degree, Ms. Richoux practiced dental hygiene four years in Louisiana and currently practices dental hygiene with dentists in Gulfport and Biloxi. Ms. Richoux's professional memberships include the American Association of Dental Boards, Southern Conference of Dental Deans and Examiners, American Dental Hygienists' Association, and Mississippi Dental Hygienists' Association.

 MDHA Vice President- Catherine Dunn, MDH, RDH  
 MDHA Treasurer- Elizabeth Carr, DHA, RDH  
 MDHA Secretary- Carrie Fowler, BS, RDH  
 MDHA Immediate Past President - Theresa Brandon, RDH

## COURSE OBJECTIVES

### Oral Pathology for the Dental Professional

**Olga Ibsen, RDH**

At the end of the lecture participants will be able to:

- List seven diagnostic methods presented
- Give two examples of lesions/conditions that are diagnosed using one or two of the diagnostic methods presented
- State characteristics of a benign lesion
- State characteristics of a malignant lesion
- Describe the oral cancer screening procedures discussed.
- State the “gold standard” in the diagnostic process.
- Identify information on the medical history that can be contributory to the diagnosis of five conditions discussed under historical diagnosis
- When is it appropriate to refer a patient to a specialist?
- List three variants of normal diagnosed through clinical diagnosis.
- Which diagnostic method is often most contributory to the differential diagnosis? Why?
- Define leukoplakia and erythroplakia. Which condition is seen most often? Which one has the greatest potential of malignancy?
- Define and describe a radicular cyst, residual cyst and dentigerous cyst?
- List, define and describe three genetic conditions discussed under clinical or historical diagnosis.

### Bloodborne Pathogens Annual Compliance

**Damien Farrand**

At the end of the lecture participants will be able to:

- Demonstrate skills in infection control that meet or exceed CDC guidelines with a training outline in
  - The chain of infection
  - Standard precautions
  - CDC general concepts
  - Required immunizations
  - Parental medications
  - Hand hygiene
  - Dental unit water quality
  - Skin care
  - Personal protective equipment
  - Latex hypersensitivity
  - Sterilization and disinfection
  - Regulated medical waste
  - Laboratory safety
  - Laser safety

### Dental Codeology

**Patti DiGangi**

At the end of the lecture participants will be able to:

- Identify dental benefits fact from fiction
- Protect themselves from fraud being committed under their license
- Know guard against misuse of this new gingivitis code and not *miss* the disease present.
- Create simple and effective “Twitter-Style” dental-medical necessity narratives

This course is appropriate for dentists, hygienists, assistants and business professionals.

### Interactive Session:

Learn about evidence-based dental hygiene and earn Continuing Education Credits by touring the student table clinic competition during lunch.

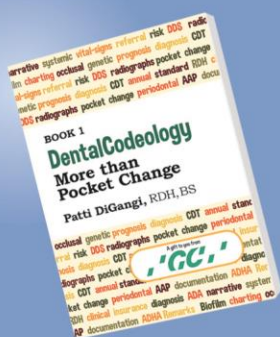

P D

Patti DiGangi, RDH, BS Presents

# Hygiene Best Practice: Care and Coding

The world of dental hygiene is poised for an explosion of new success. Factors driving this include direct access to patients, collaborative teledentistry, Medicaid providers, the continuing body of oral-systemic science and expanding practice settings. Most every dental hygienist, no matter the setting, can agree there aren't enough codes creating day-to-day dilemmas. For example, why are there no codes for care for active gingival disease without bone loss? (Hint: CDT 2017 will have a code!) In the era of the Affordable Care Act, codes are not just for payment, they also are a measurement of dental hygiene success. This course will demystify the process for clinicians.

Signature course bonus:  
FREE print copy  
*More than Pocket Change*

Patti DiGangi, RDH, BS is a coding expert holding publishing and speaking licenses with the American Dental Association (ADA) for Current Dental Terminology (CDT) 2016 and Systematized Nomenclature for Dentistry (SNODENT) diagnostic coding.
